

For the school, year of 2008-2009, the Alpha Omicron Chapter of Phi Gamma Delta did extremely well. Despite our shortcomings this year, we still did extremely well. We did not receive the Dean's Cup this year, the award given to the number one fraternity, but we did win as many awards as the fraternity that did win. We were highly disappointed that the Dean's Cup did not stay with us, as it has 20 out of the past 23 years, we were able to find out our shortcomings and focus on those areas.

For the fall semester of 2008, our philanthropic donation was \$430, our community service hours were 1,144. Our numbers were strong, but we faced hardship as we struggled with brotherhood and deciding upon a Cabinet fit to lead this chapter.

Despite our disappointment in the fall, we found a new energy in our chapter this spring. Brotherhood increased dramatically as brothers found each other out to be sources of information, and guidance. Our scholarship excelled as a member of the fraternity instituted a new scholarship program involving brothers on academic probation. The Historian is re-educating the chapter on all of our rituals and, mottos, and secrets; as to build better Phi Gams, and better role models for our successors. The Historian is also leading a widespread movement to create a chapter wide family tree, dating back to our Founding Fathers, and the chapter has in two months time gotten as far back as the mid to late 1990's.

The conclusion to the spring semester as far as philanthropy and service is still to be calculated out, but our expectations our high, as well as our spirits. As of today we have 1180 service hours, and \$121,500 raised. We have 18 members living in the house this summer, exhibiting the dedication this chapter has had ever since we received our Charter. This chapter of Phi Gamma Delta, despite the shadow of failure to the best, will switch gears faster than expected and will once again prove to every brother that we are worthy of the Cheney Cup.
